Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 131-194 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pohndorf et al. (5,904,683) in view of Grahl et al. (4,124,235).

With respect to claims 131 and 149, Pohndorf et al disclose a plate (10) an opening (22,24,26,28,30) through the plate, a ring (44) positionable within the opening the ring, and a fastener (38) positionable through the ring, the fastener configured to couple the plate to bone.

It is noted that Pohndorf et al did not teach of a ring comprising a plurality of paddles, wherein the paddles of the ring are configured to move outward to allow a portion of the fastener to be positioned in the opening, and wherein the paddles are configured to move inwards after insertion of a portion of the fastener to inhibit removal of the fastener from the plate; as claimed by applicant. However, Grahl et al. evidences the use of a ring having paddles that deformed so as to allow a fastener in and deformed so as to prevent withdrawal of the fastener.

Therefore, given the teaching of Grahl et al., it would have been obvious to one having ordinary skill in the art at the time the invention was made to replace the ring of Pohndorf et al with the ring of Grahl et al to allow a fastener in and deformed so as to prevent withdrawal of the fastener.

With respect to claims 132-148, 150-165, the above combination of references teaches all the limitations as set forth in column 4, lines 1-67 and column 5, lines 1-67, column 6, lines 1-53 of Pohndorf et al and column 3, lines 15-38 of Grahl et al.

With respect to claims 183-188, the method steps, as set forth, would have been obviously carried out in the operation of the device, as set forth above.

Response to Amendment

Applicant's arguments with respect to claims 131-194 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
